Sample Number	Laboratory Tests Performed
Intertek	
Sample 1812	• Compositional analyses • Atmospheric flash • Constant composition expansion at 243 F • Multistage separator test
Pencor	
Sample 10	• Compositional analyses • Atmospheric flash
Sample 19	• Compositional analyses • Atmospheric flash • Constant composition expansion at 100 F • Constant composition expansion at 170 F • Constant composition expansion at 242 F • Differential liberation at 242 F • Multistage separator test • Viscosity experiment at 242 F
Sample 53	• Compositional analyses • Atmospheric flash • Constant composition expansion at 100 F • Constant composition expansion at 170 F • Constant composition expansion at 243 F • Differential liberation at 243 F • Multistage separator test • Viscosity experiment at 40 F • Viscosity experiment at 100 F
Sample 1.18	• Compositional analyses • Atmospheric flash • Constant composition expansion at 100 F • Constant composition expansion at 243 F • Multistage separator test
