Subject: RE:GOM Market Share Rig Report - due Thurs Nov 5th noon

Importance: Normal

Attachments: AR's GOMMKTSHR11-05-09.xls

Attached is the GOM Market Share Rig Report from Mary Dupuis for week ending 10/30/2009.

As a refresher, please see Mary Dupuis' information below regarding this report.

Also, the revenue amount you put in Column D should be for the life of the well.

1. Filter on your name in column B
2. Fill in columns C & D (no other columns or information can be changed)
3. If column C is a competitor you do not have to fill in Revenue\$ unless you know it. Do not guess.
4. Please return to me no later than noon Thursday Nov. 5th.

Linda (Lin) Latimer

Halliburton

HBD

10200 Bellaire Blvd.

Houston, TX 77072-5206

281-988-2111

As a reminder from Mary Dupuis:

I pull the information from an outside source, ODS-Petrodata. So, I cannot change the rig/well data because when I pull the report in the next week, it will cause the

macro in my database to not populate the cells and result in a duplication or error. So everything from ODS-Petrodata needs to remain exactly the same throughout until the rig comes off of the report or changes operator.

Confidential

HAL_1235044

The purpose of this report is to generate market share. So even if the information is not exactly correct, fill in the blanks as best you can to insure that the Halliburton market share percentage is as close to actual as it can be.

If the information on the report is not pertinent to the date I am requesting information for, please put N/A in the column. This is not real time information, this is a tool we use to determine market share at two week intervals. The information is +/- 1 week old when I get it and a little older by the time you see it. If the cell is not blank, it's okay, if the information is not correct (wrong company, Halliburton, BJ, Schlumberger) please correct.

Mary Dupuis
