Team,
Please see the Dept of Interior Recommendations that were sent to me by Bob McMann w/ LLOG.
Specifically the section regarding cementing on page 23, Recommendation #3 and the discussion 3-8 as specified by Bob.

I need your interpolation of "cementing designs must be certified by a Professional Engineer."
Is this certification by PE required in our shop, or in the Operators shop...? Or both.??

Please advise.

Regards,

Kerry Steele
