Subject: Master Service Contract BPM-04-00764 - Amendment #1

Enclosed for execution by Well Flow Dynamics AS are two (2) originals of Amendment #1 to the Contract referenced above. This Amendment extends the Global call-off Contract between BP America Production Company and Well Flow Dynamics AS that is currently used by BP's Business Units globally, in selecting an Emergency Well Services provider for specific work which may arise. The expiration date of the Contract shall be extended a further five (5) years, from April 1, 2007 to April 1, 2012 and rates amended as noted.

Local Wells Managers are responsible for selecting the Emergency Well Services provider whom, in their opinion, will be most capable of completing the required work. All work will continue to be assigned through the issuance of a Work Order off of this Contract, and this extension will in no way guarantee any work for Well Flow Dynamics AS.

If you are in agreement with the above stated arrangement, please have an authorized representative of your company sign both originals at the designated signature block and return one (1) original to my attention at the following address:
