Subject: FW: Cost Savings List
Importance: Normal

Cost savings from Regulatory Team

- ~ \$7,500,000 saved by requesting approval to continue to operate the Marianas and Horizon without pulling the stack to repair the BOP after assuring the MMS of the redundancy in the systems. This will allow the completion of the Herschel 2 well.

- \$10,000 saved for revising existing Herschel DWOP rather than submitting a supplemental document (engineering time saved)

- \$10,000 saved revising an existing King SDOCD for King South which allowed us to reduce engineering & G&G time

- \$5,000 saved when an application for alternative barriers for Na Kika FPS completion was made, we used existing approvals process built on lessons learned (project team estimated \$25,000,000 savings to the H 2 cost).

- Print less/keep more electronic copies.

- Print on black/white printer instead of color printer unless absolutely necessary.

- Turn off monitor and desk light every night.

- Did not attend out of town conferences.
