Subject: HSSE Review - rig/office  
Importance: Normal

All, I have been thinking about how to make this meeting worth the time of our field leadership, but first a few admin issues. I need to move the meeting and would like to rotate any day except Wednesday or Friday and, how about once every three weeks. Promise no more than an hour UNLESS we need the time. Have an agenda, it does not have to be set but rather concentrate on what has happened and upcoming concerns. Have data (START, SOC, etc) that we can share. What is working, what's not? How can we help them? This is not a bitch session! Add items as you see fit, thanks.
