This meeting is a session to determine if we can justify the statement "The BOP functioned within it's design limits" at the hearing next week. We have all discussed this at various times over the recent months. You each have 5 minutes to give me your supporting argument with evidence at this meeting tomorrow.

Your limit is 5 minutes, each person talks individually and presents their case. At the end of the meeting we will decide if we can make a case to support the statement at the hearing.

If I have left someone off, please forward this to them to attend.
