Robert, This was a typo on my part. Owen's record is correct.

Bob

There is a conflict in the numbers please see email from Owen

Subject: Cameron SEM Service Records

Robert,

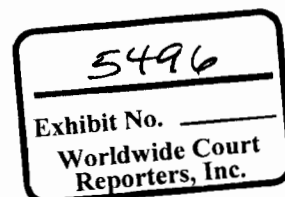

The following numbers were recorded off the base flanges on the two SEMS. Can you please check our Sharepoint tickets and other sources of Cameron service reports or documents? I think that Ryan was working on this at one time as well, trying to determine when the batteries were changed. We need to see if we can match any of these numbers up to determine when these were last shopped with Cameron and locate the relevant Cameron reports?

Yellow POD SEM:
BF 400213714
5009 30/06/2009
PN: 2020722-21

Blue POD SEM:
222507-40 A05
A5024097-1
30013510
KIT 22413-25

Hopefully, we will get the blue POD open today and be able to get information off the blue POD batteries tomorrow.

Thanks,
Bob
