

19 Q. Okay. Would you tell us, to
08:53 20 whatever extent you remember, how the
21 responsibility was divided for the
22 inspection?
23 A. If I recall correctly,
24 Mr. Willimon was on board with us as a
08:53 25 trainee. It was him and Mr. Brown did a lot

PURSUANT TO CONFIDENTIALITY ORDER

1 of the documentation and -- and paperwork
2 associated with the exam. I recall doing the
3 deck walk, checking fire stations, fire
4 hoses, walking around the deck, looking for
08:54 5 intrinsically safe lighting, ventilation,
6 ventilation shutdowns, accommodation spaces,
7 going over the helo deck, looking at the
8 structural integrity of the vessel,
9 watertight integrity, walked below decks,
08:54 10 looking at ladders, load line type stuff,
11 did -- and also did crew drills, abandon ship
12 drills, fire drills, walked through the
13 galley area, looked at the firefighting
14 systems in the galley; and to the best of my
08:54 15 recollection, that's what we did. Looked at
16 the life boats, ran the life boats, started
17 them, looked inside them.
18 O When you did the -- the
