**2009**

**2010**

**Kicks**

**October 26, 2009**

Depth: 8,970'

"[W]ell appearing to be flowing"

TREX-03376, TREX-00894

**October 27, 2009**

Depth: 9,071'

"[W]ell not static"; "we took the kick"

TREX-03376, TREX-00894

**October 23, 2009**

Depth: 8,050'

"Lost 63 bbls"

TREX-03390

**October 26, 2009**

Depth: 8,970'

"[L]osses...were 431 bbls"

TREX-00894, TREX-03391

**October 27, 2009**

Depth: 9,090'

"[B]alooning event" – 230.6 bbls

TREX-03392, TREX-01408, TREX-03394

**February 12, 2010**

Depth: 9,086'

"[N]o returns due to pack off"

TREX-00897

**February 17, 2010**

Depth: 12,350'

"Total mud lost 121 bbls"

TREX-01409

**March 3, 2010**

Depth: 12,350'

"[M]ud losses" 930 bbls

TREX-01410, TREX-01411

TREX-03484, TREX-03073

**March 8, 2010**

Depth: 13,250'

"Took a kick at 13,250"

TREX-03388

**March 21, 2010**

Depth: 13,150'

"[L]oss...was 75 bbls"

TREX-03485

**March 26, 2010**

Depth: 15,113'

"[L]osses were" 402 bbls

TREX-03486

**April 1, 2010**

Depth: 17,173'

"[T]otal...losses were 526 bbls"

TREX-03487

**April 20, 2010**

Depth: 18,360'

Kick leads to blowout and explosion

**April 3, 2010**

Depth: 17,761'

"[M]ud losses (60 bbls/hr)"

TREX-03488

**April 4, 2010**

Depth: 18,260'

"[L]ost returns" 1,902 bbls

TREX-01413, TREX-03491

**April 12, 2010**

Depth: 18,360'

"[T]he loss zone at the bottom

TREX-03494

TREX-22924

**Mud Losses**
