**Class Recommendations - Open****1574**

<b>Opened in Report</b>	MC1767269_C - Annual Machinery Survey 4	18 Dec 2009	Morgan City, LA
<b>Due By</b>	Annual Hull Survey 4 , 28 May 2010	Recommendation	
<b>Item Name</b>	Main Motor No. 02		
<b>Found</b>	The attending surveyor noted that the #2 thruster was placed out of service due to not being able to operate as intended. The manufacturer's representative was onboard examining the electric motor, however, an exact cause of the failure was not found by the end of the surveyor's attendance.		
<b>Recommendation</b>	Prior to the completion of Annual Machinery survey, the above is to be dealt with to the satisfaction of the attending surveyor.		

**Class Recommendations - In Progress**

No in progress class recommendations have been reported as of the date of this report.

**Statutory Deficiencies - Open**

No open statutory deficiencies have been reported as of the date of this report.

**Statutory Deficiencies - In Progress**

<b>Opened in Report</b>	MC1767269_A - Elevator Survey	18 Dec 2009	Morgan City, LA
<b>Due By</b>	Elevator Survey , 08 Dec 2009	Minor	
<b>Item Name</b>	Outfitting		
<b>Found</b>	The attending surveyor found that the elevators on all four columns onboard are in the process of being upgraded with newer sensors and control systems. No ABS approval for such upgrades were found onboard. Also the stbd forward elevator was found damaged and inoperable. Plans are in place to remove and repair the elevator.		
<b>Recommendation</b>	Prior to completion of the Elevator Survey, the above are to be dealt with to the satisfaction of the attending surveyor.		

**Special Findings - In Progress**

No in progress special findings have been reported as of the date of this report.

#### Instructions for filling out this form

##### IMO Ship type:

As defined in SOLAS Chapter IX, Regulation 1.

##### Class Number:

Identification number assigned to the vessel by ABS.

##### Audit Type 1:

This depends on the contract signed with ABS and will determine the scope of audit to be conducted. This information is used to identify an auditor qualified for the audit.

Should you have signed an ISM only contract then you only need check "ISM".

Should you have signed an ISPS only contract then you only need check "ISPS".

##### Audit Type 2:

If your contract also includes the ABS SQE Notation, then please additionally check the notation that you are pursuing (i.e., S, SQ, SE or SQE). This information is used to identify an auditor qualified for the audit.

Please note that should your contract cover SQE certification then you may not opt out of this requirement by choosing an ISM only audit.

SEC Notation incorporates all the requirements of the ABS Guide for Ship Security.

##### Survey Status:

If the ship to be audited is not ABS Classed, then it is a prerequisite of attendance that the auditor receives, prior to commencing the audit, a fax copy of the current survey status directly from the applicable Classification Society.

##### General Comments:

Wherever possible, please provide at least one week's notice of an intended audit.

Please ensure that the selected auditor is provided prompt notification of any alteration of the ETA and/or ETD.

##### For ISM/SQE Audits:

1) At the completion of the audit a copy of the audit report, including any Corrective Action Requests (CARs) and Observation, will be left onboard with the Master. A copy of this report together with the corrective action plan to any CARs must be maintained onboard so that they may be closed at the next audit.

2) A corrective action plan must be forwarded to the auditor within one month of the audit. Once accepted by the auditor, this plan must be implemented within three months of the audit completion. Please note many plans are not accepted on first attempt and it is therefore prudent to submit the corrective action plans at the first available opportunity.
