**Subject:** DWH - BOP follow up

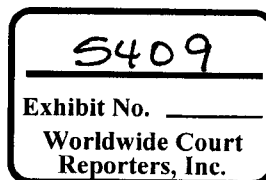

Steve,

From "Prove to me the BOP worked" meeting, the following action items were open. Would you chase these and advise?

My notes are a bit sketchy but what I have is as follows

1. Geoff – to visit with Chris Pleasant on what he saw...? YES, GEOFF SPOKE TO CHRIS WHO WAS UNABLE TO REMEMBER WHICH ANNULAR WAS CLOSED. HE ONLY REMEMBERS THAT AN ANNULAR WAS CLOSED.
2. Bob W – to visit with Drillers & TP how the BOP was operated with ST locks "on" or "off" (Photo of DWH indicating ST locks off / AMF armed) BOB WALSH CONFIRMED THAT THE ST LOCKS WERE NORMALLY LEFT IN VENT AND CHRIS PLEASANT STATED THAT HE NEVER OPERATED THE ST LOCKS WHILE THE BOP WAS ON BOTTOM DURING HIS TIME ON THE DWH.
3. Ewen – to obtain Guidry talley book / SS team talley books for indication of ....(battery change)? TALLY BOOK OBTAINED AND ALSO SPOKE TO RON GUIDRY. HE DOES NOT REMEMBER IF HE CHANGED 103 SOLENOID, SO DOES NOT REMEMBER IF HE TESTED THE CIRCUIT. TALLY BOOK IS ATTACHED TO THIS EMAL.
4. Bob W – to visit with Modu Spec – source of batteries were new comment in their report (Bob sent email indicating Modu Spec indicated this was verbal from Owen McWhorter) MODU SPEC CONTACTED AND STATED THAT THEY DID NOT PHYSICALLY CHECK ANY DOCUMENTS, BUT RELIED ON CREW INFORMATION. IF THEY HAD BEEN WORKING FOR THE CUSTOMER, THEY PROBABLY WOULD HAVE LOOKED AT THE RECORDS.
5. Chris T – delivery of batteries for testing – (11/3/10 – understand sourced from Cameron who has them in stock. Waiting on delivery) FIVE 9 VOLT BATTERY PACKS HAVE BEEN DELIVERED..
6. Why BOP functioned write up? DAN FARR WAS WRITING UP THIS SECTION. I WILL REVIEW THIS SECTION TODAY?
7. AMF FLOWCHART HAS BEEN COMPLETED BY CHRIS TOLLESON.

Thanks,
