Importance: Normal

Dear Colleague,
It has been an incredibly busy start to the year for all of us and it is difficult to believe that we are now more than 1/3rd through the year. A lot has been happening operationally.

We are also making very good progress with our process safety agenda and are on track to deliver the very important milestone of compliance with the Integrity Management Standard by the end of the year. I was particularly pleased to see in April that we continued our track record of zero overdue Safety Critical Equipment work orders for the fourth month in a row. This is no small feat with 327 work orders across the SPU in April alone. This is one of the key leading indicators to ensure we have the right integrity and process safety on our facilities and we are setting and delivering an excellent standard.

date with the most common learning being around hazard awareness. Many parts of our business continue to have long periods without a recordable injury and year to date there have been no Hi-po's (vs 10 in 2007) - lets keep it up.

We are also making very good progress with our process safety agenda and are on track to deliver the very important milestone of compliance with the Integrity Management Standard by the end of the year. I was particularly pleased to see in April that we continued our track record of zero overdue Safety Critical Equipment work orders for the
