Folks,

We have been notified that BP is a finalist for the 2009 MMS National Safety Award for Excellence (SAFE) in the High Activity Operator category. This award recognizes and commends companies for exemplary conduct of safe and pollution free operations, by adhering to all regulations, employing trained and motivated personnel, and going the extra mile to enhance safety and environmental protection. This is the second year in a row that BP has been a National SAFE Award Finalist. Congratulations to all of you and your staff who have been contributors to this nomination. The SAFE Award will be presented at the MMS SAFE Awards luncheon at the Offshore Technology Conference on May 6, 2010. Below is a summary of the SAFE Award program and winners.

The MMS will also present Offshore Leadership Awards (OLA) to outstanding individuals whose exceptional performance has raised the bar for safety achievement, improved environmental protection or enhanced resource recovery and conservation, or who have inspired innovation and outstanding performance by others. This year, Lynwood Patin, HOLC Manager, has been selected as a OLA winner. The OLA candidates are nominated by an MMS employee. Lynwood was nominated by David Dykes in the Gulf of Mexico Region for his excellent dedication in assisting the MMS in developing and implementing the MMS Subpart O workshop.

This year, the MMS SAFE Awards Luncheon will be held at the Offshore Technology Conference on May 6, 2010, at 12 noon, in Room 300, Level 2, at the Reliant Center in Houston, Texas.

Please feel free to cascade this to others I may have missed. I am certain that Jan Cherry will want to do a fuller write-up and communication to the SPU.

Congratulations!

Jim Grant
