Stephanie, the reservoir conditions are 11,856 psia and 243F. I would restore at 14,000 psia and 243F, if possible.

Thanks
Yun

Edmond and Stephanie,

A heads-up to please expect a sample from Pencor before Friday. Please have the lab ready for immediate sample restoration upon arrival. Please also have the video setup ready for CCE.

Could you let us know the shipping address?

Thanks very much for your help

Regards,
Yun
