

Criticisms of Dr. Gringarten – Convolution Analysis

- **Dr. Gringarten assumes flow rate over 86 days to calculate flow rate over 86 days**
- **Dr. Gringarten's fundamental premise that bottomhole pressure is known is wrong**
 - Bottomhole pressure was not measured
 - Gringarten must assume a flow rate over 86 days to calculate bottomhole pressure
 - No BP/Anadarko expert has calculated a flow rate schedule
