

Goals of BP's Well Control Response Guide

BP GoM Deepwater SPU  January 2010
Well Control Response Guide

January 2010

5.3 Document Objectives

The objective of this Guide is to provide clear concise instructions to key personnel in the event of a well control incident that are compatible with BP's tiered emergency response system. This will include the call out procedures and Incident Management Team (IMT) formation for a well control emergency. ... It is also realized that every well control event is unique and response and mitigation actions must be tailored to suit.
