
Iain Adams – Evaluated *Deepwater Horizon* Source Control Response

- Apply independent judgment to evaluate BP's source control activities in responding to the *Deepwater Horizon* incident.
 - Top Kill was properly risk mitigated.
 - BOP-on-BOP option could not have proceeded prior to Top Kill.
 - If BP had access to a prebuilt capping stack in April 2010, the Macondo well could not have been closed within a week or a few weeks.
- Respond to opinions of the Aligned Parties' experts.
