

Severe Economic Harm Based Upon Claim Payments

Amount of Payments - \$10bn

- Claims paid represent an estimate of losses of income, profit, and property value (among others) and are therefore a valid measure of economic harm
- Claim payments large as compared to personal income in Gulf states (Dr. Scott Round 1 report)
- Claim payments only reflect a subset of the harm

Geographic Scope of Harm

Number of Claimants

- Over 500,000 unique claimants have received payments as of July 2014

Variety of Industries Impacted
