

U.S. Government Conclusions: Successful Mitigation of Potential Health Impacts

"Safety of the crews was a major issue addressed by BP's management team. . . ."

TREX 232478.0004

"OSHA and BP personnel were able to prevent, rapidly identify, and correct health and safety

"Health and Safety was the number one strategic goal throughout this response and was reflected in:

1. **Efforts made to address potential public health impacts** of the spill, and
2. The **remarkably low injury rate** for responders across the operation."
