00320:04 Q. Since then have you personally
05 made any effort to ensure that additional
06 measures are incorporated into your
07 operations in the Gulf of Mexico so that
08 something like this never happens again?
09 A. Well, as I mentioned before, you
10 know, the drilling function in the
11 organization is going to incorporate the
12 Bly recommendations, and I am happy with
13 that, I'm satisfied with that, and I think
14 those recommendations are -- are critical
15 in going forward for our operations.
16 So that's -- so -- and I -- and
17 I agree with them incorporating the
18 recommendations into the -- into the
19 drilling operations of the deepwater Gulf
20 of Mexico.

00321:23 Q. Between September and today, has
24 anybody in BP come to you to solicit your
25 ideas, your input, on what should be done
00322:01 to prevent an incident like this from
02 happening in the future?
03 A. So certainly we have had a -- I
04 have been involved in several leadership
05 discussions where we discuss how the
06 corporation will move forward and the
07 things that we are incorporating, but
08 nobody has come to me directly personally
09 and -- and had that conversation. I have
10 been involved in larger management
11 conversations about -- about our going
12 forward, what we're going to do going
13 forward, and those are typically -- could
14 be led by Mark, sometimes they're led by
15 different executive vice-presidents, and I
16 participate in those forums.
