**Importance:** Normal

Thanks Marty, Do you happen to have the electronic version of the file you dropped by?

Brian,

I was working on getting the forecast finalized prior to break. To be honest, I don't remember how far I got! I'll look at it this afternoon - bug me if you don't hear from me!

Marty

Marty,

Did you ever update the Macondo PPFG chart to reflect the lower fracture gradient at the 22" shoe? I am reworking the drilling program for the Horizon and want to include something that portrays what we actually encountered as to reduce confusion as much as possible.

Thanks  
Brian
