Importance: Normal

Skid daddy,

Can you help me keep a watch on the existing LDS measurement tool and assure its coming to Morgan City when your finished with it.

Oceaneering Morgan City and DTS Houston knows we are looking for it. We will be modifying that stupid thing in a quick fashion to help expedite get a better KD mousetrap version going to use.

Good luck.

**Subject:** FW: Deepwater Horizon 5 Day Planner

This will be close if the wash run gets shot down. Wash run would add approx. 4 hrs if done.
