Subject: DW Horizon / TOI / BP - HSE conversation Thursday (10/15) 1:00 - 2:00 pm
Importance: Normal

All. I would like to have an HSE conversation this Thursday (10/15) at 1:00 pm. We will use the weekend conference line. As you all should know by now, I do not schedule many meetings, so, I hope everyone can participate. From the rig side, I would like at least the WSL, OIM, Captain, and RSTC to attend, more if you wish. The meeting will last no more than an hour. I do not expect anyone to prepare a presentation, here's what we will discuss:

Current state of overall rig HSE

What's working?

What's not working?

Suggestions for improvement

Plan going forward

Any other item on someone's mind. BUT, this is not a bitch session, it's about HSE, any constructive conversation is welcome.

I would like to see this conversation become something we do once every three weeks, but, it's up to the group, it has to be useful.

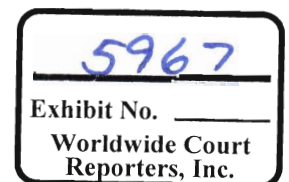

Thanks.

John Guide
