I just wanted to thank everyone again for all of your help on the 9 5/8" X 7" Combination DWP SSR Plug set order for BP! The job went well! I will try to get all of the information I can on this job! The 3140 psi with the pressure it took to break circulation through the Float Equipment.

Thanks again!

Regards,

Bryan Clawson

Full returns, didn't see the bottom plug go, but saw it and top plug at all indication points and landed out right on time.

Brian
