To the Horizon Team,

Congratulations and great job! I feel proud, honored, and very lucky to be associated with such a high performing rig. Keep up the excellent work.

David

Rod,

I would like to say thanks for a "job well done" too!
Unfortunately the job never ends but you guys are demonstrating how it is done every day! Excellent achievement.
Please express my appreciation to the entire crew.

Regards,
Jerry

p.s. thanks for the enthusiastic participation at the meeting

Rod
I echo the words of Paul.
Great milestone, one day at a time. It can be done.

Rod,
Please pass on my congratulations and admiration to the entire Deepwater Horizon team.

Reaching the mile stone of working 1 year recordable free is a great achievement and something we should all feel very proud of.
It takes hard work and commitment from the entire crew and I would like to say thank you. Once again you have demonstrated what can be achievable if we truly believe we can work injury free.

Lets take one day at a time, utilize with total commitment and passion all of our safety tools and begin our quest of working 2 years recordable injury free.

Great job!

Regards
Paul
