Detailed statement regarding incident including who was involved, what, when where and why events took place:

About 9:00pm I was in the heavy tool room cleaning up

and the only other floorhand that was up there
came up to me & told me we need to suck out the
pollution pan with the vacuum. I had a radio
so if the driller needed us he could contact us,
we went to the vacuum unit on StBd Aft deck to
empty unit into cut box before we began on the

pollution pan. All the other Roughnecks were in
Pit Room, Pump Room, & Shaker house. Daniel and
I checked the line up to empty vacuum when
I looked up to the Rig floor, I saw mud blowing
out all over. I told [REDACTED] to follow me and we raced
up the back way to the rig floor. When we got behind
the drawworks mud was spraying out everywhere, so I told
Daniel to get in heavy tool room while I tried radio
contact with driller. ~~Driller~~ I got no response on radio
so I went into tool room to use the phone. We could
hear heavy equipment falling all around on motorshed &
Schlumberger deck. Right before I used the phone I
got a strong smell of Gas, so I told Daniel to follow me
to lifeboat station. On the way down the lights went
out, so I grabbed my flashlight & led the way for
Daniel & I. When we got to the lifeboat station the
first explosion went off. I opened the living quarters
to see if anyone needed help, soon after another
explosion & we mustered and boarded lifeboats
