Subject: Foamed Production Jobs at BP - Livelink 10 KB
Importance: Normal

Erick,

Per our discussion yesterday, below is a list of Foamed Production Jobs that I have performed here at BP on the Horizon / Marianas since January 2006. Job Dates for the 1st 3 jobs are approximate dates. My understanding is that all were bond logged. I have not see the bond log or received any feedback from the Isabela & King South wells, they were both bond logged at a later date. Nakika was bond log after job and was consider good. Let me know if you have any questions. Thanks!!

1. Isabela Prospect – Horizon
Drilling Eng – Nick Lirette
10 3/4" X 9 7/8" Prod Casing
