

Oil Spill Response Plan

Objectives (Strategic) What you plan to do in priority order	Strategies (Tactical) How do you plan to accomplish objectives
1. Ensure the Safety of Citizens & Response Personnel	<ul style="list-style-type: none"> Identify hazard(s) of released material Establish site control (hot zone, warm zone, cold zone and security) Consider evacuations as needed Setup first aid/triage stations Establish vessel and/or aircraft restrictions Monitor air in impacted areas Setup decontamination stations Develop site safety and health plan for response personnel Ensure safety briefings are conducted
2. Control the Source	<ul style="list-style-type: none"> Complete emergency shutdown Conduct firefighting Initiate temporary repairs Transfer and/or lighter product Conduct salvage operations as necessary

Objectives (Strategic) What you plan to do in priority order	Strategies (Tactical) How do you plan to accomplish objectives
3. Manage Coordinated Response Efforts	<ul style="list-style-type: none"> Complete or confirm notifications Establish a unified command organization and facilities (command post, etc) Ensure local & tribal officials are included in response organization Initiate emergency response Incident Action Plan (IAP) Ensure mobilization and tracking of response resources Account for personnel and equipment Complete documentation Evaluate planned response objectives vs. actual response (debrief)
4. Maximize Protection of Environmentally Sensitive Areas	<ul style="list-style-type: none"> Implement pre-designated response strategies Identify resources at risk in impacted and potential impacted areas Track pollutant movement & develop trajectories/plume modeling Develop/implement appropriate protection tactics Prioritize sensitive areas to be protected
5. Contain and Recover Spilled Material	<ul style="list-style-type: none"> Deploy oil containment boom at the spill source Deploy containment boom at appropriate collection areas Conduct open water skimming with vessels Evaluate time-sensitive response strategies (i.e., dispersants, <i>in-situ</i> burning) Develop disposal plan
6. Recover and Rehabilitate Injured Wildlife	<ul style="list-style-type: none"> Establish oiled wildlife reporting hotline Conduct injured wildlife search and rescue operations Notify wildlife agencies and accredited wildlife rescue services Setup primary care unit for injured wildlife Operate wildlife rehabilitation center Initiate citizen volunteer effort for oiled bird rehabilitation
7. Remove Oil from Impacted Areas	<ul style="list-style-type: none"> Conduct appropriate shoreline cleanup efforts Clean oiled structures (piers, docks, etc.) Clean oiled vessels
8. Minimize Economic Impacts	<ul style="list-style-type: none"> Consider tourism, vessel movements and local economic impacts throughout response Protect public and private assets as resources permit Establish damage claims process
9. Keep Stakeholders Informed of Response Activities	<ul style="list-style-type: none"> Provide forum to obtain stakeholder input and concerns Provide stakeholders with details of response actions Identify stakeholder concerns and issues and address as practical Provide elected officials details of response actions
10. Keep the Public Informed of Response Activities	<ul style="list-style-type: none"> Provide timely safety announcements Establish a Joint Information Center (JIC) Conduct regular news briefings Manage news media access to spill response activities Conduct public meetings as appropriate
11. Minimize Business Interruption	<ul style="list-style-type: none"> Identify business interruption and potential business interruption issues Notification of joint venture partners Assist with internal/external investigations
