

Deposition Transcript of Andrew Frazelle: No Deepwater Blowout Source Control Training

ORAL AND VIDEOTAPED DEPOSITION OF:

Andrew Eric Frazelle

INDIVIDUALLY AND AS CORPORATE REPRESENTATIVE
VOLUME 1

SEPTEMBER 26, 2011

Q. And you understood that BP would want to do everything it possibly could to control a blowout, right?

MS. HARDING: Object to the form.

A. I think when we look at it is, if you look at it from a -- a barrier standpoint is that we were looking at well control training for people more on the prevention side of things versus the reactionary side of things.

Q. (By Mr. Barr) And this is the same well control training that you concluded after April 20th was inadequate, correct?

MS. HARDING: Object to the form.

A. Yes, sir.
