## Adam L. Ballard, Ph.D.

---

### ■ Oil and Gas Industry Experience

- Over 11 years experience at BP, primarily in the field of Flow Assurance.
- Engineering positions focused on all areas of the system from the wellbore up to the surface facilities.
- Application of hydraulic theory and hydraulic models to the system in both design and in operations phases.
- Lead Flow Assurance Engineer and Engineering Manager on Thunder Horse (oil industry's largest offshore production platform in the Gulf of Mexico).
- Instructor in BP Flow Assurance Course
- Tallow Chandler Award for Excellence in the Innovation and Application of Technology

### ■ Role in Deepwater Horizon Response

- Design of subsea infrastructure and system operations for the Containment and Disposal Project ("CDP"), intended to capture and dispose of oil released after the incident.
